Suzanne and Cathy,

Please find Pennsylvania's draft Phase 3 Watershed Implementation Plan(WIP). I believe I have attached the main documents, per your request, in a Word format. Unfortunately, some documents, like the four pilot county plans were submitted to us in pdf format or are too big to send via email in a word format.

You can also find everything posted on our DEP Website at: www.dep.pa.gov/chesapeakebay/phase3.

The WIP was posted in our PA Bulletin today for a public comment period ending June 7. Public comments can be submitted through our ecomment system at <https://www.ahs.dep.pa.gov/eComment/>. You can also view comments that we have received through this same system.

The CAST scenarios have been posted and access granted to Jeff Sweeney and Sucharith Ravi per your instructions. The Pennsylvania Draft Phase 3 WIP scenario is titled "Pennsylvania DRAFT Phase 3 WIP 4-12-19." This scenario was built using the 2017v9 progress as the baseline scenario. The scenario was built on a 2025 base year, with current zoning as the base condition. Pennsylvania used the 2017 wastewater data set and planning BMPs as the available BMPs. Practices were entered based on the appropriate county level scale. A large input file of all county BMPs was constructed based on the Countywide Action Plans in respective counties with completed plans and State Recommendations. This scenario was built using the large input file. If you have any questions concerning how this scenario was built, please do not hesitate to contact Jordan Baker at c-jorbaker@pa.gov.

Please do not hesitate to contact me with any questions or concerns. I look forward to working with you to finalize this.

Enjoy your weekend.
